

*In this October 1935 photo of the NA-18, the undercarriage wheel covers and spats are no longer highly polished. Again, the photographer cited the aircraft as type XNA-18. (Harold G. Martin)*

*The NA-18 eventually entered the inventory of the Argentine Army as number 301. It is shown here in Argentine markings at Base Aérea El Palomar near Buenos Aires in 1940. (Vladimiro Cettolo Collection)*
